## LANGUAGES & TOOLS

- JavaScript
- Typescript
- Python
- C
- English
- French
- NodeJS
- Bun
- ReactJS
- NextJS
- tailwindcss
- MongoDB
- PostgreSQL
- MySQL
- AWS, Vercel
- Docker, K8s.
- Linux

## WORK EXPERIENCE

### Full-stack Developer

#### Alba Cars/Homes

Jan 2024 to Present

##### Projects:

As a real estate and car dealership company,

- Developed a CRM system featuring a ticketing system that streamlined communication between real estate agents and admins, resulting in a 40% increase in closed deals.
- To further enhance the system's capabilities, I leveraged OpenAI's powerful language models for property management tasks. These models enabled automated tasks such as generating property descriptions and answering customer inquiries.
- Contributed in developing the user interface for the company's real estate and cars website using Next.js and React.js.

##### Technologies:

Javascript, Typescript, NodeJS, ReactJS, NextJS, MongoDB, PostgreSQL, AWS, PHP, Docker, K8s, OpenAI LLMS.

### Software Developer

#### AFRIITECH

Feb 2021 to Jan 2024

##### Projects:

As a software development company and educational institute:

- Developed Mobile and Desktop Applications for Clients
- Built and distributed software for companies
- Integrated blockchain DApps and web3 with Solidity, TypeScript, and Node.js, ReactJS implementing secure and transparent systems for various applications.

##### Technologies:

php, Web3, JavaScript, Typescript, NodeJS, Docker, MongoDB, AWS. AngularJS, mySQL

## EDUCATION & CERTIFICATIONS

### Software Development

AFRIITECH  
Web, Mobile and Desktop Apps Development  
January 2021

### Bachelor of Computer Science

Westford University College  
June 2024
